## OXYTET 1000 SP

### AVL

Oxytetracycline hydrochloride, USP

**Water Soluble Antibiotic for Chickens, Turkeys, Swine, Calves, Sheep and Lambs**

Veterinary Use Only

DIN 02438593

**Warnings:** Keep out of reach of children.

Treated animals must not be slaughtered for use in food for at least: CHICKENS and TURKEYS - 7 days, SWINE, CALVES and LAMBS - 10 days after the latest treatment with this drug. This product must not be used in laying birds.

**Active Ingredients:** Oxytetracycline HCl 1000 mg/g, USP

**Description:** Oxytetracycline HCl is an antibiotic similar to tetracycline and chlortetracycline in bacterial spectrum. Oxytetracycline is rapidly absorbed and effective in the treatment of many diseases due to Gram-positive and Gram-negative bacteria, spirochetes, rickettsia and some chlamydia.

**Indications:** As an aid in the treatment of infections caused by or associated with microorganisms sensitive to Oxytetracycline HCl.

**Chickens and turkeys:** Chronic respiratory disease (CRD), Bluecomb, cholera, enteritis and Hexamitiasis.

Swine, calves, sheep and lambs: Enteritis (diarrhea) and respiratory diseases.

**Dosage and Administration: Chickens and turkeys:**

Add 1 g of powder per 20 L or 100 g of powder per 2000 L of drinking water for 3 to 5 days.

**FOR AUTOMATIC PROPORTIONER:**

Set the apparatus to distribute 30 mL per 4 L of drinking water (1 oz/gallon U.S.). Prepare the stock solution by dissolving 25 g of powder in 3.8 L of water. This will medicate 500 L of drinking water.

**Swine (scours and respiratory diseases):**

Add 1 g of powder per 100 kg of body weight every 12 hours, given as a drench using a dose syringe, or 1 g of powder per 8 L or 25 g of powder per 200 L of drinking water for 4 or 5 days.

**FOR AUTOMATIC PROPORTIONER:**

Set the apparatus to distribute 30 mL per 4 L of drinking water (1 oz/gallon U.S.). Prepare the stock solution by dissolving 50 g of powder in 3 L of water. This will medicate 400 L of drinking water.
