COPPER HOOF TREATMENT

Copper Naphthenate 37.5% w/w Topical Solution

Veterinary Use Only

DIN: 02380110

ACTIVE INGREDIENTS: Copper Naphthenate 37.5% w/w topical solution.

WARNINGS: Do not use on teats of lactating animals. Keep out of reach of children. If swallowed, do not induce vomiting; call a physician immediately. Avoid inhaling vapour. Avoid contact with skin and eyes. Not for human use. Gloves should always be worn when using Copper Hoof Treatment.

FUNGICIDE-ANTISEPTIC-ASTRINGENT-WATER RESISTANT.

INDICATIONS: As an aid in the treatment of thrush and to toughen hooves in horses; footrot in cattle, sheep, goats and pigs. To prevent bleeding after dehorning cattle, sheep and goats. As an aid in the treatment of hoof punctures, cracked hooves, ringworm, wounds and to water proof bandages in all of the above species.

DIRECTIONS FOR USE: Cleanse affected area and remove necrotic tissue. Squirt Copper Hoof Treatment on affected area or apply with brush or swab. Apply daily until fully healed or as recommended by your veterinarian.

CAUTIONS: For External Use Only on Cattle, Horses, Sheep, Goats and Pigs.

Use with caution around eyes and mucous membranes. Do not allow excess to runoff onto hair, since contact with this solution may cause some hair loss. Do not use on cats, dogs and rabbits. Do not contaminate animal feed.

STORAGE: Store below 25°C. Keep from freezing. Extremely flammable. Keep away from heat, sparks, open flame, and other sources of ignition.
