## CARTIKARE™ CHEW

Chews for dogs and cats to support joint health and function and promote normal cartilage development.

Veterinary Use Only  
NN.H8N7

Carti-Kare is formulated to support joint health and function, and to promote normal cartilage development.

Carti-Kare chews contain proven levels of glucosamine and chondroitin, natural elements of joint tissue that help maintain normal joint function. They also contain New Zealand green lipped mussel, the only natural source of ETA, a potent Omega-3 fatty acid to support joint health and function.
