SAFETY DATA SHEET

Section 1: Identification		when handling product and disposing of dead rodents, unconsumed bait and empty containers. Avoid contact with eyes, skin or clothing. Wash hands before		
Product identifier: Other identifier(s):	Revolver [®] Soft Bait Registration No. 31347 Pest Control Products Act	eating, drinking, chewing gum, using tobacco or using the toilet. Wash skin thoroughly with soap and water after handling. Wash contaminated clothing,		
	Only to be used by certified pest control operators,	separately from other laundry, with soap and hot water before reuse.		
	farmers and persons authorized in government-	Section 9: Physical and Chemical Properties		
	approved pest control programs.	Appearance: Soft paste, green color, raw grain odor. Odor threshold not determined.		
Manufacturer:	Liphatech, Inc. 3600 W. Elm Street, Milwaukee, WI 53209 USA	Solubility: Negligible (in water) pH: Not applicable		
Emergency phone:	800-351-1476 Monday - Friday 8:00 am - 4:30 pm	Relative density: 1.25 g/cc Viscosity: Not applicable		
After hours phone:	(US Central time zone) Human or Animal emergencies: RMPDC at 866-514- 9168	% Volatile (volume): Not applicableEvaporation rate: Not applicableVapor density: Not applicableVapor pressure: Not applicable		
•	Spill emergencies: CHEMTREC at 800-424-9300	Boiling point: Not determined Flash point (ASTM D92): >150 °C Autoignition term : Not determined		
Section 2: Haza	ard Identification	Flash point (ASTM D92): >150 °C Autoignition temp.: Not determined Decomposition temp.: Not determined Flammability: Not a flammable solid		
Hazard class: Specific Target Organ Toxicity (Single exposure), Category 2; Specific Target Organ Toxicity (Repeated exposure), Category 2 Warning: May cause damage to blood and reduce the clotting ability of blood if swallowed, inhaled or absorbed through skin. Do not breathe dust. Do not eat, drink or smoke when using this product. Wash hands thoroughly after handling. If exposed or if you feel unwell, call a poison control center or doctor. Dispose of container and contents according to instructions on product label. Store locked up.		Explosive limits - Lower limit: Not applicable; Upper limit: Not applicable Partition coefficient (n-octanol/water): Not applicable		
			Section 10: Stability and Reactivity	
		Reactivity: Not reactive, not sensitive to shock or static discharge		
		Chemical stability: Stable Hazardous reactions: None Incompatible materials: None Conditions to avoid: None Hazardous decomposition products: Oxides of carbon		
			Section 3: Composition / Information on Ingredients	
		Hazardous ingredients:		Likely routes of exposure: Ingestion, skin absorption.
Bromadiolone (CAS registry number 28772-56-7) 0.005% by weight		Symptoms of toxicity: Lethargy, loss of appetite, reduced clotting ability of blood and hemorrhage. Eye effects/eye irritation: Mild, transient irritant Acute oral effects: LD50 (oral-rat): >5000 mg/kg Acute inhalation effects: LC50 (rat, 4 hour): 8.6 mg/L (extrapolated)		
Section 4: First Aid Measures				
May be harmful or fatal if swallowed or absorbed through skin. May irritate eyes.				
Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.				
	en and rinse slowly and gently with water for 15-20 minutes.	Acute dermal effects: LD ₅₀ (dermal-rabbit): >2000 mg/kg		
Remove contact lense	s, if present, after the first 5 minutes, then continue rinsing	Skin irritation: Non-irritating Skin sensitization: Not a skin sensitizer		
	I centre or doctor for treatment advice.	Carcinogenicity: No ingredient listed by NTP, IARC or OSHA		
<u>If on skin or clothing</u> : Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for				
treatment advice. If swallowed: For all cases of human ingestion, call a poison		Section 12: Ecological Information This product is toxic to fish and wildlife. Keep out of lakes, streams or ponds. To		
control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.		reduce exposure of non-target birds and other wildlife to poisoned carcasses, dead rodents should be securely wrapped and placed in closed containers and disposed of at Provincial sites, where available, or at municipal landfill sites. Otherwise, securely wrap carcasses and bury to a depth that will make them		
			Note to physician: Vitamin K ₁ in the form of intramuscular or subcutaneous	
injections, or by oral ingestion are suggested remedial treatments for anticoagulant poisoning. The severity of the case measured by establishing				
			inaccessible to scavengers.	
prolonged prothrombin times (P.T.) will determine appropriate therapy. Monitoring P.T. will indicate the necessity of repeated treatments. Any allergen		Section 13: Disposal Considerations		
contained in the product is listed on the front panel of the label.		Do not reuse empty container. Dispose of unused or spoiled bait in accordance with local requirements.
